

HOT TUB COVERS CANADA.CA

Superior Vinyl Exterior

Marine-grade vinyl designed to exceed all standards with UV protection and mildew inhibitors

Double Reinforced Folding Hinge

strong enough to deal with the stress of all those openings and closings

4 Tie-down Straps

along with new male-female clips with key for added safety and security

Extra Reinforced Padded Handles

double-stitched and made to match your cover, these handles are placed at the edges for easy lifting and removal

High Density Vapour Barrier

Heat-sealed with 6mil of polystyrene wrap for extra protection against waterlogging

Tapered Foam Core

cleverly designed to guide melting snow and ice, as well as rain to run off on all sides, saving you from a sagging middle

Drain Grommet

if any moisture gets trapped inside the cover, this release mechanism removes it through the natural water cycle

Double-Ply Poly-Laminate Industrial Grade Liner

moisture and mildew resistant vinyl liner to maintain durability

High-Quality Aluminum Reinforcement

to avoid any possible rusting and strengthen the center of your cover

Heal Seal Gasket

seal to prevent heat loss

Marine-Grade Reinforced Zipper

that won't rust or seize from corrosion

Skirt

custom cut to your measurements, provides additional insulation and protection against dirt, ice and snow

Double-Stitched Threading

92lb bonded polyester thread with UV protection ensures the exterior holds together through all weather or physical stress

Advertising-Free Covers

Unlike most of our competitors, we do not place advertisements on the covers we sell
